

I strongly oppose the NAB's petition 04-160 and HR 4026! I use the weather and traffic services provided by XM Radio everyday to plan out my route to work. I am in the military assigned to the Pentagon and commute nearly 45 miles a day each way. The constant traffic updates are invaluable to my family and I because this information enables me to avoid congested areas which not only allows me to spend more time with my family; it allows me to make it to work on time.

Please reject NAB petition 04-160 and HR 4026. I, as a XM Satellite customer, pay for the services provided and do not think it is right or appropriate for the US Government to decide who provides me with traffic and weather information.
